Welcome To Our Website

Skills Learnt:

Languages

HTML-> The Hypertext markup language which is used for creating web pages and web applications.

- <u>CSS</u>-> Cascading Style Sheets is a style sheet language which is used to describe the look and formatting of a document written in markup language.
- <u>JavaScript</u>-> JavaScript is a scripting language used to create and control dynamic website content, i.e. anything that moves, refreshes, or otherwise changes on your screen without requiring you to manually reload a web page.
- **Bootstrap**-> a collection of HTML, CSS, and JavaScript tools for creating and building web pages and web applications. It is a free and open source project
